Application no-10/748,207. Letters not received

We have seen on the Patent Information retrieval system that the PTO has tried to send its responses to us in Sweden this year. However, these letters appears to have been sent to our previous company address in spite of the address change sent to you and apparently received by the USPTO sep 5 2006:

Arnex Navigation Systems AB
Box 53052
SE-400 14 GÖTEBORG
Sweden

Could you please confirm your reception of this address change again
We also would like to get the response letter from you.

Best regards
